

2015/16

Our year in numbers

People in Health
West of England

PROMOTING INVOLVEMENT

We increased subscribers to our e-news bulletin Newsflash by **59%** this year

We advertised **68 involvement opportunities** for people in the West of England

We launched a **public facing website**

SUPPORT AND ADVICE

17 Health Integration Teams benefitted from our support

We received over **50 requests for advice and support**

CO-PRODUCTION

8 public contributors guided our work through the Strategy Group

16 members of the public were involved in co-production activities such as 'Design Together Live Better'

TRAINING AND EVENTS

390 people benefitted from our training

20 events were held for 140 young people

87% of people attending events were very or extremely satisfied by their experience

PHWE is a unique partnership between four core health organisations supported by University of the West of England and members of the public, to increase the public voice in health research and service improvement across the West of England.

PRIORITIES FOR THE YEAR AHEAD

Build on our current programme

We will be promoting best practice in involvement and participation in health research and service improvement. For more details see www.phwe.org.uk.

Evaluate our successes

We will carry out an interim evaluation of the PHWE model this year, with the view to a more in-depth evaluation in the longer term.

Consolidate systems and processes

We will develop and consolidate our systems and processes, especially around communications.

WANT TO GET INVOLVED?

Our work offers a unique way for members of the public to make an impact on how health services are delivered in the West of England. There are many ways you could get involved: receive our fortnightly Newsflash detailing involvement opportunities; take part in workshops; join a Health Integration Team or Electronic Citizen's Panel.

To find out more give us a call on 0117 342 1251, email enquiries@phwe.org.uk, visit www.phwe.org.uk or follow us on Twitter at [@PeopleHealthWE](https://twitter.com/PeopleHealthWE)
