

## **Involvement opportunity**

### **Patients and doctors as partners in learning October 2016**

Any health service needs to understand the people it serves and good organisations do this as a matter of course. With this understanding we can deliver care that is safe, effective and that is experienced positively.

This autumn, we are looking to recruit 6 patients to join us in our second “patients and doctors as partners in learning” initiative. The initiative brings together patients and junior doctors in small group conversations, to share their personal experiences of care at UH Bristol and explore what really matters to patients about the relationship they have with their doctor. The conversations are facilitated, last for about 90 minutes and are part of the on-going training and support we offer to our doctors.

If you are passionate about quality in health care and are willing to share your experience to drive improvement please register your interest in taking part with [nicholas.harper@UH Bristol.nhs.uk](mailto:nicholas.harper@UH Bristol.nhs.uk)

Time: **Meeting at 2.30pm for a 3.00pm start ending at 4.30pm**  
When: **Wednesday 12<sup>th</sup> October and 26<sup>th</sup> October 2016**  
Where: **Education and Research Centre, Upper Maudlin Street, Bristol, BS2 8AE**

*Nick Harper is a Postgraduate Education Fellow at University Hospitals Bristol NHS Foundation Trust.*

Thank you

Respecting everyone  
Embracing change  
Recognising success  
Working together  
**Our hospitals.**
